

Brampton Soccer Club

Individualized Home Program

Overview:

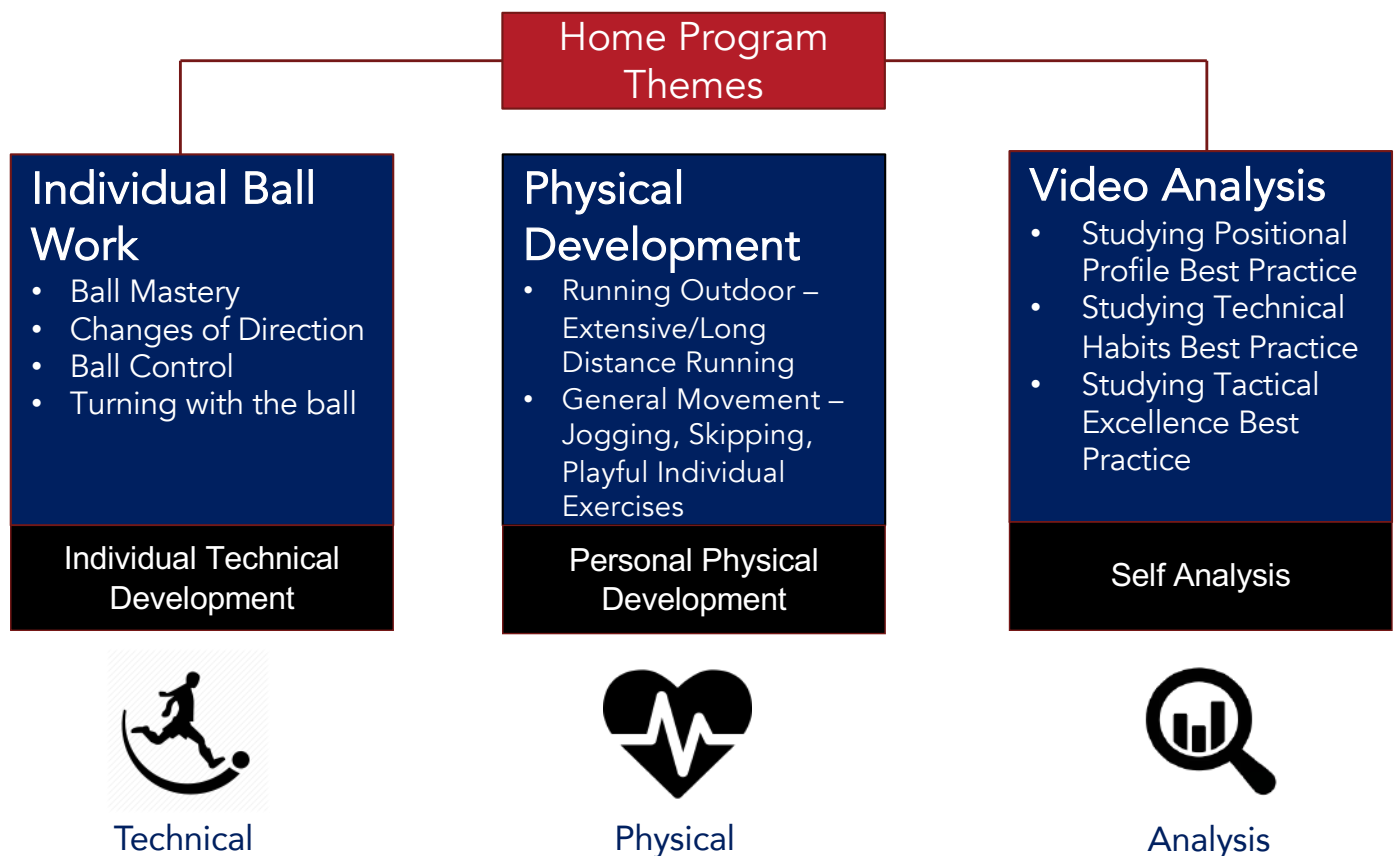

This home program is to support the development of Brampton SC players outside of the current training program. We have structured the home program to cater towards Individual Technical Ball Mastery and Performance analysis of World’s Best Practice.

We have set up the program for a 3-Week Block. If they program requires additional training time due to unforeseen circumstances, we will increase the Weekly blocks to supplement the development outside of the BSC environment.

For this program to be successful, all players are expected to complete the full requirements as a minimum and we recommend that you do extra on top of the prescribed program. We encourage players to be proactive with planning their daily schedules to fit in the training windows and keep a log of their workload across the 3-week period.

This program is individualized and does not require any contact with other players and we highly recommend that players maintain personal hygiene best practice based on the recent epidemics.

Enjoy and keep pushing yourself to be the best you can be!
